Math Skill Sheet Answers - orrisrestaurant.com

Power is a measure of how much work is done in a certain time. The faster work is done, the more power is produced. EQUATION: $\text{work} = \text{power} \times \text{time}$ The unit for power is the watt (W). One watt (W) is equal to 1 J of work done for 1 second. Use the data given in the diagram below to determine how much work and power are involved in each step.
