K62 & K66 Oil Changing Procedure - Tuff Torq Parts

Since the K46 transmission has a history of failure, over the winter, I'm planning to change the transmission fluid in my X300. My tractor has about 30 hours on it and I can tell that after mowing for 45-60 minutes its ground speed slows down a bit.

Question About Draining Fluid From My X300 Transmission

After much research including reading laments about the K46 transmission, I've just purchased a D170 / 54" deck. This will be dedicated to mowing only, ~5AC of level ground in hot central Texas. In spite of many interweb posts suggesting that the K46 (variant "BE" w/internal reservoir in this case) is 'sealed' and 'can't be maintained', and similar notes in the D170 Operator's Manual
