closure as you understand what to expect when your loved one is possibly ready for home hospice care in Las Vegas. If you have questions about hospice, call us at (702) 509-5276 or contact us online. 7 Signs that Death May Be Near

### **Stages of Death: 7 Signs That Dying Is Imminent**

In the early stages of dying, the dying person may prefer only soft foods and liquids. In the very last stages of life, however, they may not want any food or drink. A dying person may want to suck on ice chips or take a small amount of liquid, just to wet and freshen the mouth, which can become very dry.

### **The Last Stages of Life - Kokua Mau**

The dying person will feel weak and sleep a lot. When death is very near, you might notice some physical changes such as changes in breathing, loss of bladder and bowel control and unconsciousness. It can be emotionally

event or problem. Other times the dying process moves slowly and the patient seems to linger.

## **What to Expect When a Person with Cancer is Nearing Death**

In fact, hearing is one of the last senses to lapse before death. Often before death, people will lapse into a coma. A coma is a deep state of unconsciousness in which a person cannot be aroused. Persons in a coma may still hear what is said even when they no longer respond.

## **Hospice Foundation Of America - Signs of Approaching Death**

The final stage includes various health issues that didn't exist during the previous stages. The reason is the body is unable to recover due to lost liver function. If a patient is in this stage it's possible to live a couple of years. However, the good news is a liver transplant can help to extend their life past this timeframe. Stage 3 of liver cirrhosis affects areas the liver that start
