Direct Approach. When you use the direct approach, the main idea (such as a recommendation, conclusion, or request) comes in the "top" of the document, followed by the evidence. This is a deductive argument. This approach is used when your audience will be neutral or positive about your message. In the formal report, the direct approach usually mandates that you lead off with a summary of your key findings, conclusions, and recommendations.

A direct approach for distribution system load flow solutions. Abstract: A direct approach for unbalanced three-phase distribution load flow solutions is proposed in this paper. The special topological characteristics of distribution networks have been fully utilized to make the direct solution possible. Two developed matrices-the bus-injection to branch-current matrix and the branch-current to bus-voltage matrix-and a simple matrix multiplication are used to obtain load flow solutions.
