Combine 1/4 cup of water with 1/4 cup of baking soda; pour into the soap dispenser. Pour two cups of white vinegar into your empty washing machine. Run a hot wash cycle. With a few small changes to your laundry routine, you can also prevent those unwanted odors from ever returning.

Why Does My Washing Machine Smell? | GE Appliances Factory ...

For top-load washers, a leak from the top could be due to oversudsing or overloading (both of which are easily resolved), whereas a leak from the bottom could suggest an issue with the water pump. For front-load washing machines, a front leak could be caused by a damaged or dirty door seal, but a bottom leak is more likely to be caused by a ...

Ge Washing Machine Troubleshooting & Repair | Repair Clinic

For other models of GE washing machines, a pause in a cycle will cause the electronic controls to lock up. The pause can happen for several reasons, including a power failure or if the stop/pause button was pressed to pause the cycle and not reset. Whatever the model, if your machine is stuck in a cycle, try to reset the GE washer first.
