The MDS Master Stations, built upon our modular communications platform, are used with SD Series and x710 series remote radios. The MDS Master Stations support full duplex communication in a protected 1+1 warm standby transceiver configuration to provide reliability for continuous use, high duty cycle applications associated with licensed narrowband Base Station and Repeater applications.

From 1934 until the end of the 1930's, GE produced a 2-way mobile radio which was, depending on the year, a variation of the original 4GB1 transmitter shown below. This was GE's last AM VHF two-way police radio, as far as I have been able to determine, and the outbreak of war in 1941 probably ended production of this model, which was quite obsolete by that time.
