Hi! I'm new in the forum but "struggled" with my old Okuma lathe and some home brewed Mach projects for couple decades as a hobbyist. The type of the Okuma lathe is LS 30 N and it is still working fine even though it is from the beginning of 80's. OS is OSP5000. For some reason I have started to worry if the machine could lost its parameters or something similar, maybe due to battery dying or ...
