See the curve: https://calcat.covid19.ca.gov. Data dashboards Statewide case statistics and demographics . This includes positive cases, deaths, and testing results. View statewide data

Data and tools - Coronavirus COVID-19 Response

A statistical model is a mathematical model that embodies a set of statistical assumptions concerning the generation of sample data (and similar data from a larger population). A statistical model represents, often in considerably idealized form, the data-generating process. A statistical model is usually specified as a mathematical relationship between one or more random variables and other non-random variables. As such, a statistical model is "a formal representation of a theory" (Herman Adèr

Statistical model - Wikipedia

Forecasts show national and state level cumulative reported and predicted deaths since the beginning of the pandemic. CDC is working with partners to bring together weekly COVID-19 forecasts in one place.

Previous COVID-19 Forecasts: Deaths | CDC

statsmodels is a Python module that provides classes and functions for the estimation of many different statistical models, as well as for conducting statistical tests, and statistical data exploration. An extensive list of result statistics are available for each estimator. The results are tested against existing statistical packages to ensure that they are correct.

Introduction — statsmodels

Overview. Data modeling is a process used to define and analyze data requirements needed to support the business processes within the scope of corresponding information systems in organizations. Therefore, the process of data modeling involves professional data modelers working closely with business stakeholders, as well as potential users of the information system.

Data modeling - Wikipedia

But COVID did throw a big twist into how I was thinking about research, and in both of my classes, we would spend at least the first 10 minutes talking about Coronavirus and data and models. Students could see some of the things we were talking about happening in real-time.
