The seventh edition of the APA Manual endorses the use of "they" as a singular pronoun. The manual advises writers to use "they" for a person whose gender is unknown or irrelevant. For instance, rather than writing "I don't know who wrote this note, but he or she has good handwriting," you might write something like "I don't know who wrote this note, but they have good handwriting."

This book provides students with a clear and thorough presentation of the theory and application of structural analysis as it applies to trusses, beams, and frames. Emphasis is placed on teaching students to both model and analyze a structure. Procedures for Analysis, Hibbeler's problem solving methodologies, provides students with a logical, orderly method to follow when applying theory.
