Villiers 2t Twin Engine

Villiers manufactured a range of single and twin two-stroke engines (from 98 cc to 325 cc) for light motorcycle and vehicle manufacturers until the 1960s. In the early 1960s, the company was taken over by Manganese Bronze Holdings , and in 1966 together with AMC became Norton-Villiers , and in 1972 merged with the BSA group to become Norton-Villiers-Triumph , which eventually went into liquidation in 1978.

Villiers Engineering - Wikipedia

The 2T engine powered the 25D Fleetwind twin, the subsequent 25DB Sports Twin, the 25DCX and the first 25DD Essex Twin. This was replaced by the 4T engine for the Essex Twin Mk.II. The 4T engine had larger, squarer-finned barrels, having been designed for use in microcars from the likes of Bond that needed extra cooling, as the engines on these machines were enclosed.

Greeves Essex Twin - Classic Bike Guide

The James machine became available the following year and was driven by a Villiers 2T two-stroke, twin cylinder engine with a bore and stroke of 50mm by 63mm to give a capacity of 247cc.

Greeves sports twin

An introduction which excited many interests in 1956 was that of a new twin engine, the 2T. The vertical twin had a bore and stroke of 50 cc x 63.5 cc giving 249 cc . Each barrel had its own crankshaft, separated by a central disc in the crankcase holding a central bearing with a roller bearing on the magneto side and a ball bearing on the sprocket side.

Villiers 2t 250cc Twin Engine for sale | eBay

The Villiers twin is a 50mm x 63.5 unit with cast iron barrels and Villiers experts favour the 2T over the later 4T design due to latter's harshness. The competition Norman had a tuned engine, with a 25mm carburettor and a compression ratio of 10:1 , as opposed to 8.25:1, but the B4 was restricted by a 22mm carb so ran out of puff at 70.

Villiers Motorcycle Parts for sale | eBay

Setting 2-stroke ignition timing is fairly simple. The majority of classic 2-strokes have ignition systems that fall into one of two types: contact points inside a flywheel magneto (Villiers and early Japanese engines) and external contact points mounted on an adjustable plate with an internal flywheel.

How to Set 2-Stroke Ignition Timing - LiveAbout

1962/1965 - Cruiser model 89, 249cc 2T and 4T twin cylinder Villiers engines: The 2T engine is reported smoother with more Torque and the 4T engine has better performance and cooling provision. Comes in Arden Green with gold line trims or Arden Green and cream
